Section 7.A.1. -

Grades - Driveways shall be installed according to the following profile detail.

Section 7.A.2. -

Intersection Angle - Driveways shall intersect streets as close to ninety (90) degrees as possible, but in no case shall the intersection angle be less than seventy (70) degrees or greater than one-hundred ten (110) degrees.

Section 7.A.3. -

Sight Distances - Sight distances shall be provided for the proposed driveway intersection with the street in accordance with Pennsylvania Code, Title 57 "Transportation", Chapter 441 "Access To and Occupancy of Highways by Driveways and Local Roads", latest edition. The required and provided sight distances shall be provided on the "Application & Permit for Driveway" form. If the required sight distances cannot be met, the driveway shall be placed in a location where the greatest sight distance can be achieved upon consultation with the Township Road Master and/or Township Engineer.
